Summary

Having **2+ year** of **Experience** as a **.Net and Dynamics 365 Developer**, I am confident in my ability to bring value to your team and contribute to your organization's success.

My expertise lies in developing and maintaining complex applications using Microsoft technologies such as C#, .NET, ASP.NET Core MVC, Dynamic 365 Finance & Operation, Dynamic Business Central and SQL Server. I have a deep understanding of (OOP) object-oriented programming principles, design patterns, and architecture concepts.

I am a quick learner with excellent problem-solving skills, and I am always eager to learn new technologies and methodologies to stay up-to-date with industry trends. I am also a team player who can work independently as well as in a team environment.

Skills

- ASP.NET Core: Developed and maintained web applications.
- SQL Server: Managed and optimized databases.
- Entity Framework: Implemented efficient data access and ORM solutions.
- LINQ: Performed complex data operations with clean, efficient queries.
- C#: Proficient in writing and debugging object-oriented code.
- Object-Oriented Programming (OOP): Applied OOP principles for software design and development.
- MVC Architecture: Designed and implemented MVC-based applications.
- RESTful APIs: Developed and consumed APIs for various functionalities.
- Version Control: Used Git for version control and collaboration.
- Microsoft Best Practices in order to ensure clean, efficient and human- readable solutions.
- Experience with SSRS reporting Framework in Dynamics 365 for in-depth analysis of procurements, sourcing and other aspects of enterprise businesses.
- Experienced in Source control management and advanced code merge architecture using Devops.

Professional Experience

Jul-22 – Current

.Net Developer/Dynamics Developer

GuruGroup LLC, *Dothan, Alabama, USA*

I work within the .NET framework on Microsoft Dynamics 365 for Finance & Operations (ERP) and Dynamics 365 Business Central, focusing on forms customization and SSRS report generation.

Skills: .NET Core · C# · ASP.NET Web API · ASP.NET MVC · .NET Framework · X++ · Microsoft Dynamics 365 for Finance & Operation · Microsoft Dynamics AX · SQL Server Reporting Services (SSRS).

Sep-21 – Jul-22

Associate Dotnet Developer

JMM Technologies, *Peshawar, Pakistan*

Worked on the development of an Enterprise Resource Planning (ERP) System, tailored for deployment across multiple Middle Eastern countries including Saudi Arabia (KSA) and the United Arab Emirates (UAE).

Skills: .NET Core · C# · ASP.NET Web API · ASP.NET MVC · .NET Framework · SQL.

Dotnet (Internship)

JMM Technologies, *Peshawar, Pakistan*

As an intern, I gained hands-on experience with ASP.NET Core, SQL Server, Entity Framework, and LINQ. I developed web applications, managed databases, and utilized LINQ for data operations, enhancing my skills in full-stack development.

Skills: .NET Core · C# · ASP.NET Web API · ASP.NET MVC · .NET Framework · Microsoft SQL Server.

Jul-21 – Sep-21

Trainee (Dotnet Core)

System Links, *Peshawar, Pakistan*

Passionate .NET trainee with a solid foundation in C# and ASP.NET Core, eager to apply theoretical knowledge to real-world projects. Seeking hands-on experience and mentorship to further enhance skills in software development.

Skills: .NET Core · C# · ASP.NET Web API · ASP.NET MVC · .NET Framework.

Projects Experience

Project 1 – Microsoft Dynamics AX 2012 - USA Client

Role: Technical Consultant

Technology: Microsoft Dynamics AX 2012

Project Summary: Development & Customization

Main Responsibilities:

- Understand functional requirements to ensure alignment with business needs.
- Creation of SSRS Reports to support data analysis and reporting needs.
- Forms Customization to tailor the application to client specifications.
- Daily reporting to the Team Lead on achievements and pending tasks.

Project 2 – ASP.NET Core - KSA Client

Role: Associate Dotnet Developer

Technology: ASP.NET Core

Project Summary: Development and implementation of the Al-Hysabat ERP system.

Main Responsibilities:

- Collaborated on the development of the Al-Hysabat ERP system, leveraging ASP.NET Core technology.
- Worked closely with clients to gather and understand functional requirements.
- Customized and developed new modules to meet specific business needs.
- Provided daily updates to the Team Lead, ensuring transparency and tracking progress.

Project 3 – ASP.NET Core MVC - School Management System

Role: Associate Dotnet Developer

Technology: ASP.NET Core MVC

Project Summary: Development of a comprehensive School Management System.

Main Responsibilities:

- Designed and implemented key modules for managing student records, attendance, and grading.
- Developed a user-friendly interface using ASP.NET Core MVC for efficient data entry and retrieval.
- Integrated features for parent-teacher communication and automated notifications.

Education

MCS (Master of Computer Science)

National University of Modern Language – Islamabad

Bachelor Degree (Computer Science)

University of Peshawar - Peshawar
